

**Women in Science  
Engineering and  
Technology**

**Speakers:**

**Professor Dame Celia  
Hoyles**

President of the Institute of Mathematics and its Applications (IMA), Professor of Mathematics Education, University of London

**Professor Sophia  
Ananiadou**

Professor of Computer Science, The University of Manchester

**Fiona Crowther**

Storage System Development Team Lead, IBM Systems & Technology Lab, Manchester

# Ada Lovelace Day

## WiSET Workshop

to

celebrate the life of **Ada Lovelace**  
19th Century English **mathematician** and  
the world's first **computer programmer**.

Our very own Alan Turing referenced Ada's work!

Please join us for an afternoon beginning with talks by three eminent women mathematicians and computer scientists.

Students and early career academics will also briefly share their stories.

Robogals will be providing demonstrations and fun with robots!

**Target audience:** All Students (UG/PG), Research Staff and Academic Staff. Men very welcome.

**Wednesday,  
15 October 2014  
13:30-18:00**

**Book online:**  
[helen.ryder@manchester.ac.uk](mailto:helen.ryder@manchester.ac.uk)

**Alan Turing  
G.107**

**Keynote  
Presentations**

**Professor Dame  
Celia Hoyles**

14:00-14:45

**Professor Sophia  
Ananiadou**

14:45-15:30

**Presentations  
Fiona Crowther  
Students**

16:00-16:20

16:20-16:50

**Special thanks to the School  
of Mathematics for kindly  
sponsoring this event.**
