

Return to Study Stages

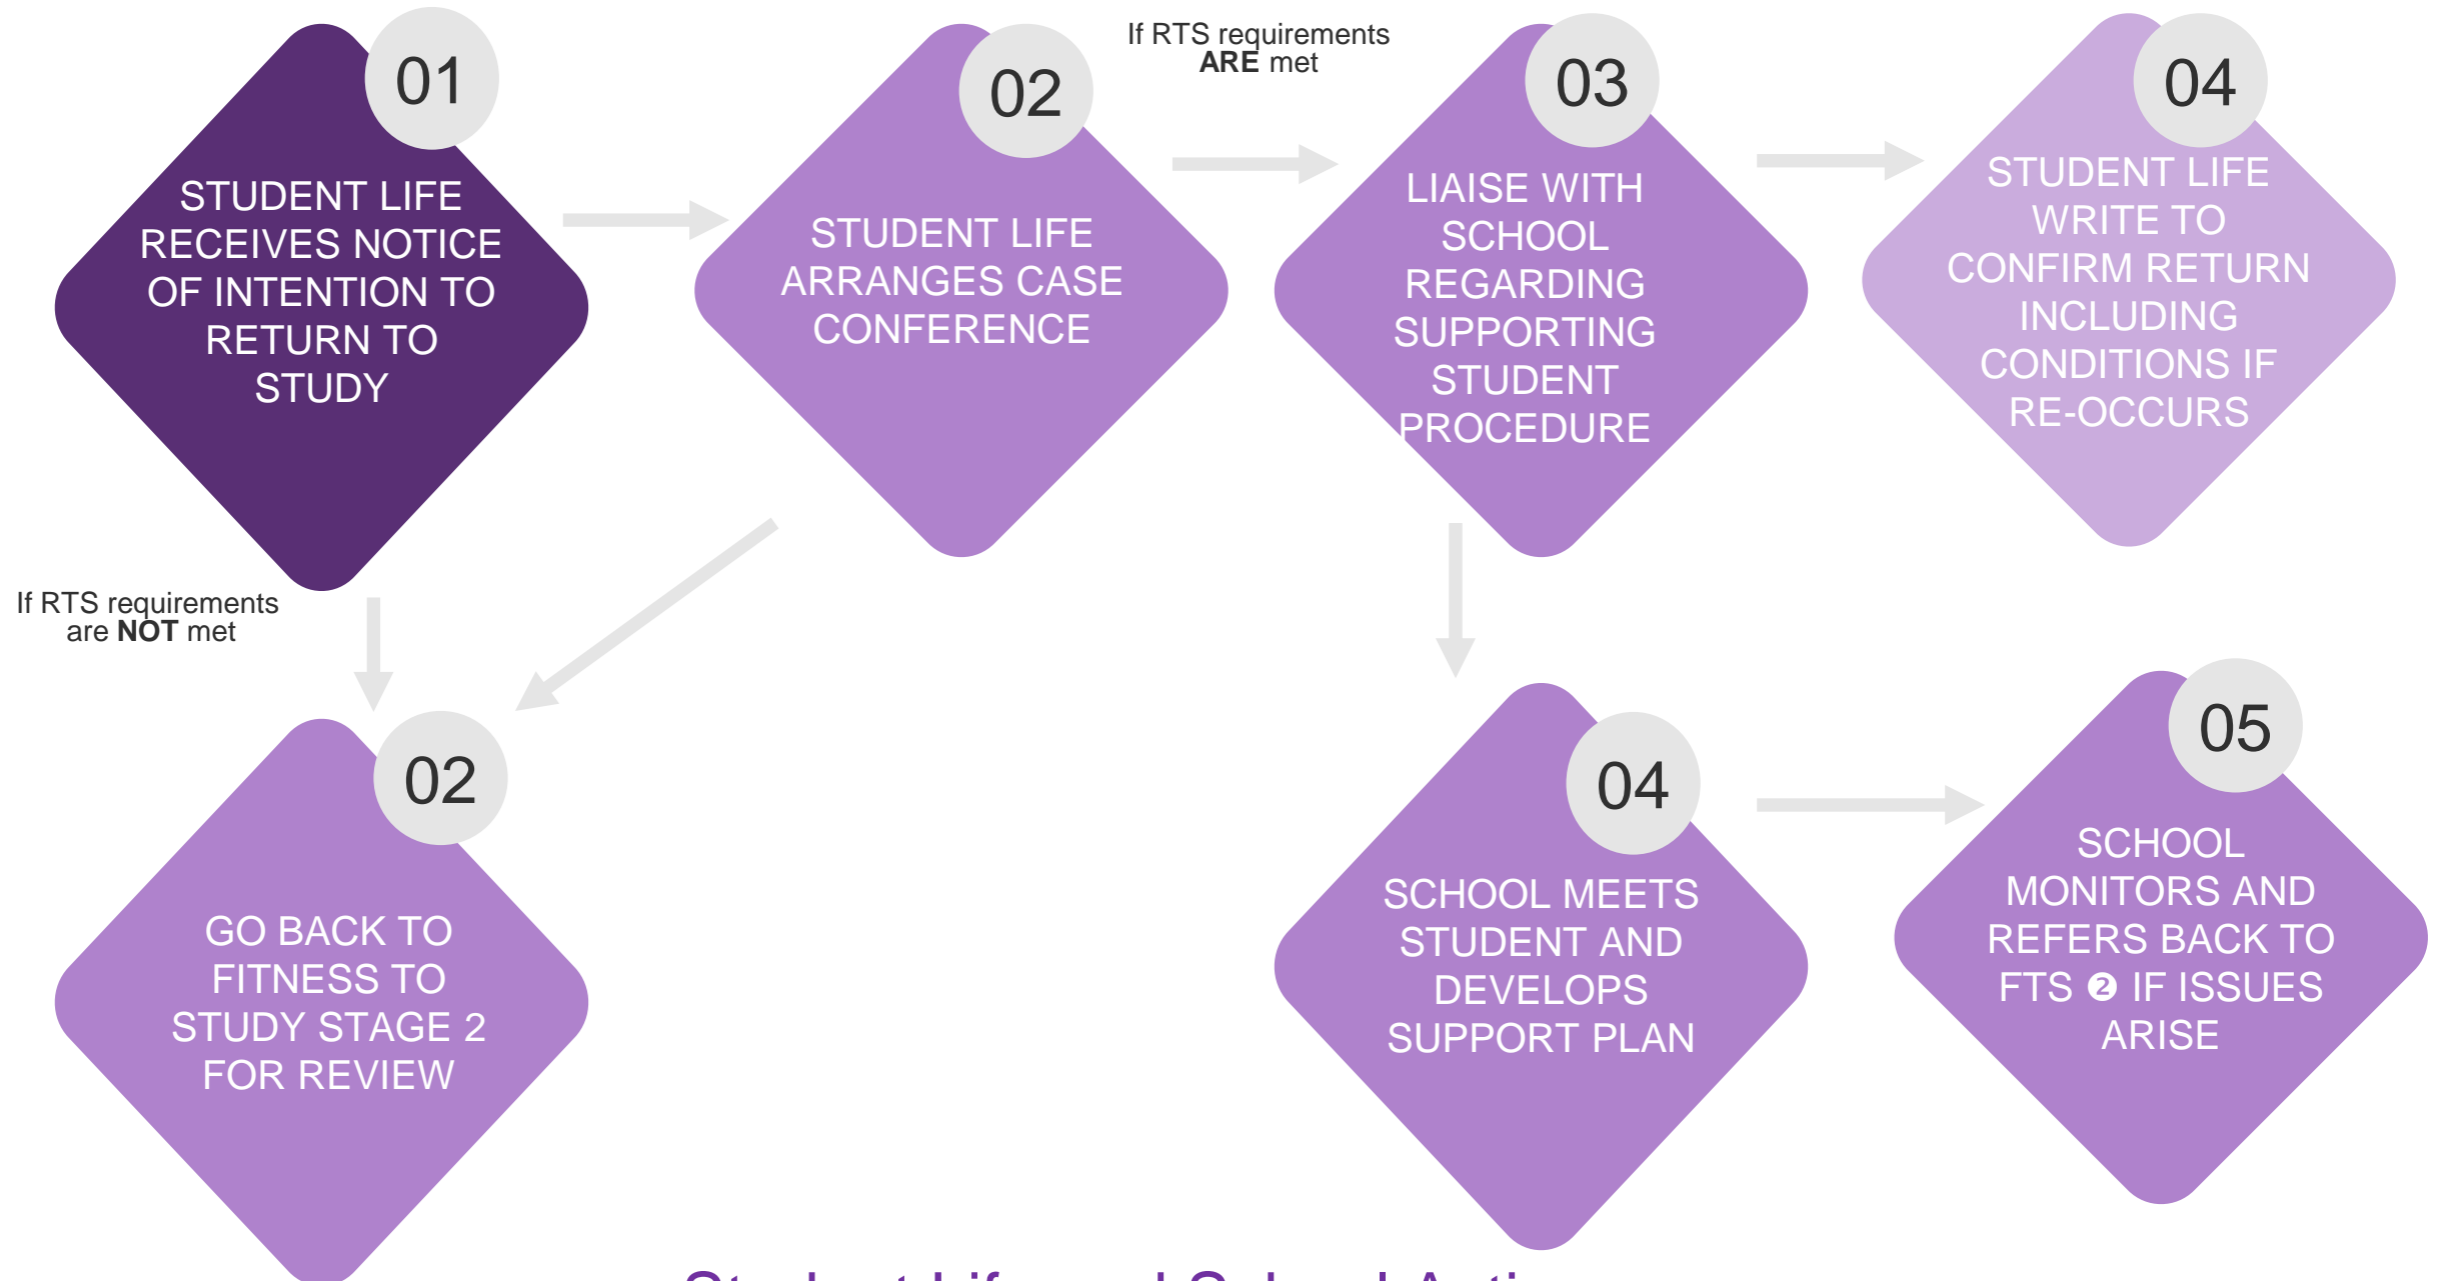

For interruptions/suspensions to study of more than 3 months, the student should give notice to the Division of Student Life of an intention to Return to Study on a specific date. This would normally be at the start of a Semester and agreed by the School.

Student Actions & Student Life Initial Response

All student actions will be made directly to the Division of Student Life, who will monitor and co-ordinate the on-going interruption/suspension or the positive Return to Study.

Student Life and School Actions

All student actions will be directly to the Division of Student Life, who will monitor and co-ordinate the on-going interruption/suspension or the positive Return to Study.
